עבודה עם השירות

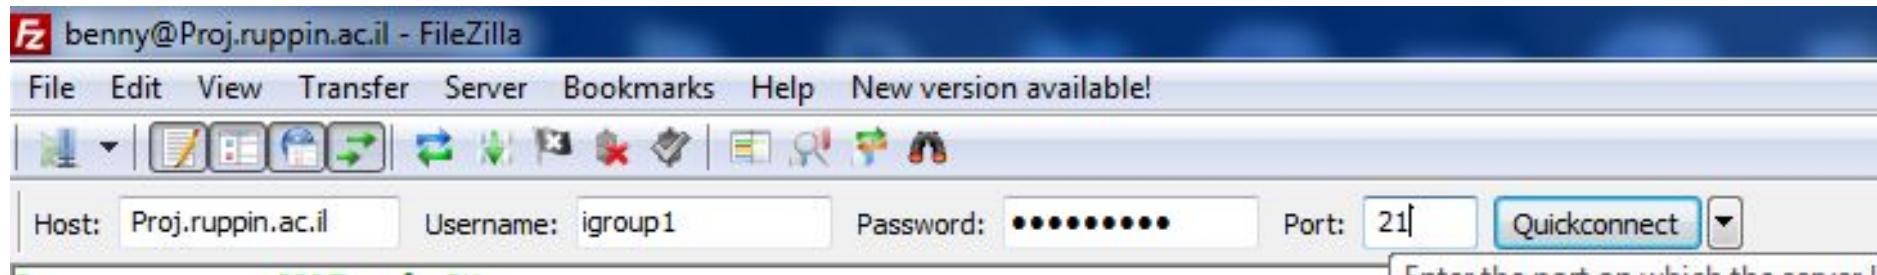

Working with the server

- Every team gets a user :
 - Industrial Eng. : igrup#groupNumber (e.g. igrup5)
- Every team gets a password
- Every team has access only to her own resources

Working with sFTP

- Download the sFTP client :
<http://sourceforge.net/projects/filezilla/?source=dlp>
- Connect to the server via :
 - Proj.ruppin.ac.il
 - Port 21

Setting the Filezilla client

Go to Edit->Setting and set it as shown in the images below
